

Texas Law Firm Launches New Truck Accident & Injury Website

The Houston traffic accident attorneys at Doan Law Firm have unveiled a new website focused solely on helping Texas truck accident injury victims and their families.

HOUSTON, TEXAS ([PRWEB](#)) January 09, 2015 -- Traffic accidents involving a commercial vehicle often result in more serious injury than other accidents. In addition, they often require a more complex personal injury claim that could involve both the truck driver and multiple trucking companies. Now, Houston-based Doan Law Firm has launched a website dedicated exclusively to providing clear, accurate truck accident legal information to injury victims and their families.

The new website, located at texas trucking accident attorneys.com, offers visitors the answers to frequently asked questions, information about what to do after a Texas truck accident, and a no-obligation truck accident case review with an experienced personal injury attorney.

“We are proud to announce the launch of our new website and are hopeful that it will help injury victims find out exactly what they need to know in the days, weeks, and months after a commercial truck collision,” said founding attorney Jimmy Doan. “We understand what a stressful, overwhelming, and expensive time this can be for truck accident survivors, and we are here to help, from offering general information and resources to providing thorough, assertive legal services.”

Visitors to the website will learn about the common causes of truck accidents, including:

- Blind spots
- Distracted driving
- Fatigued driving
- Lost drivers and drivers on unfamiliar roads
- Driving under the influence (DUI) and driving while intoxicated (DWI)
- Aggressive driving and reckless driving
- Poor signal use
- Poor driving decisions

The website also offers in-depth information about common truck accident injuries, which can include burns, lacerations, spinal cord injuries, back and neck injuries, head injuries, internal injuries, and fatal injuries.

“We have found that many injury victims don’t know how much their truck accident claim is really worth, and that they may accept the first settlement offer from the insurance company without investigating their case,” said Doan. “We hope this website educates our readers and empowers them to take action in the wake of a serious truck accident and injury. We want all Texas truck accident victims to receive fair and just compensation.”

To learn more about how truck accidents happen, to schedule a private consultation, or to speak to a skilled Texas truck accident attorney, please visit the new [Houston trucking accident website](#) or call (800) 913-0075 today.

About Doan Law Firm:

Founded in 2005 and located in Houston, the Doan Law Firm serves traffic accident injury victims throughout the state of Texas. With a focus on client attention, assertive legal action, and thorough accident investigations, Doan Law Firm assists clients with a wide range of motor vehicle accidents, including car accidents, truck accidents, motorcycle accidents, bus accidents, drunk driving accidents, train accidents, hit-and-run accidents, ATV accidents, and pedestrian accidents. The firm takes on both personal injury claims and wrongful death claims.

Founding attorney Jimmy Doan received his law degree from the Texas Wesleyan University School of Law in 2000 and he is a licensed attorney of the State Bar of Texas. With 15 years of experience, Doan has dedicated his legal practice to helping injury victims receive full and just compensation for their losses in the wake of an accident that wasn't their fault.
