

Portable Restrooms at Charlotte Cattle Baron's Ball

Portable Restroom Trailers, LLC provided luxury portable restrooms for rent to American Cancer Society fundraiser

Charlotte, North Carolina ([PRWEB](#)) December 01, 2015 -- Portable Restroom Trailers, LLC is the nation's leading provider of portable restrooms and shower trailers. Since its first annual event, they have worked with the American Cancer Society to provide luxury restroom trailers for the Charlotte Cattle Baron's Ball fundraiser. This year, two portable restroom trailers were provided.

The Charlotte Cattle Baron's Ball fundraiser was held from 6:00 pm to 11:00 pm on November 14, 2015 at Churchill Stables in Midland, North Carolina. Churchill Stables is owned by Bruton Smith. Mr. Smith is better known as the owner of Charlotte Motor Speedway NASCAR track, and nine other NASCAR tracks. He graciously allowed the American Cancer Society access to his beautiful facility for the cowboy and cowgirl themed event, and it was the perfect venue.

Now in its second year, the popular fundraiser featured a cocktail reception, silent and live auctions, and live music. There was even a special performance from Country Music star, Tracy Lawrence. It was one of over 50 Cattle Baron's Balls held across the country this year; the event originated in Dallas, Texas. The fundraiser focused on raising funds for research, advocacy, early detection, prevention, education and patient programs to assist cancer patients and their families.

As with any high profile event, having adequate restroom facilities on site was an important part of the evening. Churchill Stables did not offer enough permanent restrooms for all the guests in attendance, so Portable Restroom Trailers, LLC worked with event planner, Allison Doane, to get [portable restrooms for rent](#). They offered them a highly discounted rental rate on two restroom units, with no setup costs or delivery fees. There was a luxury nine station restroom trailer and an ADA plus two restroom trailer available at the Ball. In addition, Portable Restroom Trailers, LLC provided an attendant to maintain the facilities for the evening at no cost.

The luxury nine station portable restroom trailer used at the Charlotte Cattle Baron's Ball is the same unit Portable Restroom Trailers, LLC rents to the PGA tour and other high profile events that demand first class restroom facilities. The lavish environment features nine spacious private restroom suites. On the inside, there is rich hand-finished hardwood cabinetry and wood accent moldings. It also features soft ambient lighting, a surround sound system, designer porcelain sinks, metered access faucets with hot water hand wash, and much more. The unit is fully climate-controlled with air conditioning and heat, an added creature comfort for fundraiser attendants.

Not to overlook their less agile guests, the American Cancer Society also selected an ADA plus two station trailer. The ADA compliant, fully handicap accessible restroom trailer allowed guests easy access with lower, shorter ramps and other ADA compliant features. The unit features one, extra-large unisex ADA compliant suite with the ability to rotate 360° in a wheelchair, and two additional private restroom suites.

“We truly enjoy being able to work with the American Cancer Society to provide restroom trailers for this important fundraiser,” says Portable Restroom Trailers, LLC Operations Manager, Teri Pahon. “We were so excited to be able to provide trailers last year when Kellie Pickler performed and a very generous amount of

money was raised for the American Cancer Society. We knew this year's Ball would be bigger and better, and were pleased to offer our portable restrooms for rent at such a highly discounted rate. We know the more money saved on event costs, the more money can go to the important work the American Cancer Society does. We also felt it was critical there be a quality, ADA compliant restroom on site along with the luxury nine station, so that all guests had equal access to restroom facilities.”
