

Arcline Truckload Dispatch & Arcline Transportation Brokerage Version 2 Products, E-Mailing & Faxing of Documents Directly From The Software, And New Multi-Screen Dispatch Command Center

ARCLINE (2000) INC., developers of Arcline Transportation Software System since 1991, now launches Version 2 Products, offering e-mailing and faxing of documents directly from the Arcline Transportation Software programs.

Innisfil, ON: September 1, 2003 - ARCLINE (2000) INC. launches the new Arcline Multi-Screen Dispatch Command Center

Innisfil, ON ([PRWEB](#)) February 8, 2004 --Arcline (2000) Inc. Introduces faxing and e-mailing functions directly from Arcline 2000 Transportation Software Systems, complementing the already extensive list of interfaces offered. Add-On Features such as, Fuel Tax, Fuel Card Integration, Satellite Tracking, Fleet Maintenance, EDI, and Internet Tracking; supplement Arcline 2000 Software making it a powerful tool in the Transportation Industry. Arcline 2000 Inc. is a recognized integration partner and reseller for both ProMiles and PC*Miler by ALK Technologies Inc. These interfaces allow for the Insertion of maps, directions, and mileage calculations seamlessly into the load order section.

A significant new standard feature in Version 2 allows the user to attach photos, letters and documents in several formats using a separate data table. Formats include Adobe Acrobat, Emails, Microsoft Word Documents, Microsoft Excel Spreadsheet, TIFF, JPEG, BMP Images, etc. These data tables can be individually associated to: Bill To's, Shippers, Consignees, Equipment and all related documents within the software. Additional features include: Desktop personalization for the incorporation of the incorporation of the company's logo and the development of the software to support multi-screen functionality. The Arcline Dispatch Command Center allows companies to have multiple windows of the software open for viewing and editing simultaneously.

Standard in both Arcline (2000) Software Systems, is the ability to create customized sales and activity reports. Daily, monthly, quarterly or yearly reports can be generated with simplicity. The Arcline Truckload Dispatch System can generate detailed expiry reports for all vehicles/drivers registration and medical reminders.

Dispatchers are able enter Terminal Carriers, Ports, Cross-Docks, and Yards creating multiple picks, drops and cross-docks, all on a single Load Order!

Through the addition of many time saving features, interfaces, partnerships and involvement with associations, Arcline (2000) Inc. will stay on the leading edge of technology. Our products are industry and time tested for over 12 years and our commitment to our customers is to provide the latest technology and exceptional customer service. When you choose Arcline (2000) Transportation Software Solutions, you choose a partner for life; making YOU and your BUSINESS more successful!

About Arcline (2000) Inc.

Arcline (2000) Inc. develops advanced software solutions for the Transportation Industry. Our objective is to provide Trucking Companies and Freight Brokerage firms with reliable, easy-to-use, affordable software

systems. Arline now offers low cost leasing options, in-house financing for 12 and 24 months periods and now accepts Visa® and MasterCard® as methods of payment. Our development team has spent many years learning and scrutinizing the flow of information in the transportation business. Explore our Website at www.arline2000.com or visit us at The Mid-America Trucking Show, booth # 6130 and see how our software will grow with your business. Both Version 2 products are now available for shipping.
