Philatron Wire and Cable Introduces THE ALASKAN STALLION™ Air Lines for the Heavy Duty Trucking Industry Rated -100ºF to +260ºF

The Alaskan Stallion™ the only air line that offers superior anti-kinking and extra flexibility in sub-zero temperatures in the industry.

Santa Fe Spring, CA (PRWEB) January 07, 2014 -- Philatron Wire and Cable brings the heavy duty trucking industry - The Alaskan Stallion™ the only air line that offers superior anti-kinking, and extra flexibility in sub-zero temperatures in the industry.

Dramatically improving the quality of air lines for the trucking industry this is the perfect solution to extreme weather environments with the -100ºF to +260ºF rating. The Alaskan Stallion™ made with a new proprietary blend of rubber olefins overcomes the challenges of the frozen Arctic or the hostiles of Death Valley. It's nice to know that the Alaskan Stallion™ is a product you can rely on. Exceeds far beyond cold temperature requirements.

The trucking industry can start calculating savings with the use of this product. It's another showstopper from Philatron Wire and Cable. The Alaskan Stallion™ proudly displaying at both TMC and Mid American Trucking Show in March 2014.

The ALASKAN STALLION™
Benefits:
* Safer Anti-Kinking Design
* Double Wall Thickness
* Corrosion Proof Armor Guard™
* Superior, Long Term Coil Memory
* Anti-Sagging Engineering & Construction
* Durability and Reliable
* Always Tight Fitting – No Air Leaks!
* Long Term Performance, Infrequent Replacement
* Minimum down Time, Maximum Road Time
* Performance in Virtually all Conditions: from -100ºF to +260ºF
