

Renaat Ver Eecke Named President of Teletrac Navman

Vice President and Chief Service Officer promoted to lead GPS tracking and fleet management solutions provider, Teletrac Navman, a combined company formed by Teletrac Inc. and Navman Wireless

Glenview, IL ([PRWEB](#)) July 14, 2016 -- Teletrac Navman, a global leader in GPS tracking and fleet management solutions, today announced that Renaat Ver Eecke has been named President of Teletrac Navman and has assumed leadership responsibility for all functions of the global business.

“I am pleased to announce the appointment of Renaat Ver Eecke as President of Teletrac Navman,” said Martin Gafinowitz, President, Gilbarco, Inc. “Under his leadership, we expect Teletrac Navman to continue to accelerate above market growth while we continue to build and develop our combined team. Please join me in congratulating Ver Eecke on his new role and in supporting him as we go forward.”

Renaat Ver Eecke originally joined the Navman business in 2005 as part of Brunswick New Technologies, and was part of the original Navman Wireless leadership team that took the company to a privately held organization in 2007. Ver Eecke then served as General Manager of the Navman Wireless U.S. region until 2013, at which time he assumed the role of Vice President of Global Services. In that capacity, he implemented and managed the company’s first integrated global Customer Account Management teams, leading to a 70% increase in sales and a positive impact on operating profit of \$1 million in nine months.

Upon the merger of Teletrac and Navman Wireless in late 2014, Ver Eecke assumed the added responsibility of Vice President and Chief Service Officer for the joint business. In that role, he created a combined global services team, implemented a common worldwide organizational structure, unified KPIs on a global level, and drove operational margin expansion, including a 22% year-over-year improvement in the Teletrac customer base.

Renaat Ver Eecke holds a Master’s of Business Administration from MIT’s Sloan School of Management and a BS from Georgetown University as well as the Catholic University of America.

About Teletrac Navman

Teletrac Navman, the combined company formed by Teletrac Inc. and Navman Wireless, offers GPS-based fleet optimization products and services, including real-time vehicle tracking, electronic logging, communications and analytics that enable companies to monitor, measure and improve operational costs and efficiencies. The company's technology currently tracks more than 500,000 vehicles owned by over 40,000 organizations on six continents, making it one of the world's largest fleet management providers. The company, headquartered in Glenview, IL, has offices in the United States, Mexico, United Kingdom, New Zealand and Australia.
