

## **More Ergonomic Semi-Trailer Dolly Jack Invented by InventHelp Client (HTM-3009)**

*InventHelp, founded in 1984 in Pittsburgh, is submitting the A-JACK to companies for their consideration and potential feedback.*

PITTSBURGH, PA ([PRWEB](#)) July 20, 2016 -- An inventor and truck driver from Alamosa, Colo., has designed an improved dolly jack for use with semi-trailers. "I was looking for a better way to roll dollies on semi-trailer trucks and I came up with this idea," he said.

The A-JACK allows for easier use than a conventional dolly does. It minimizes strain, saving time and effort as a result. Easy to use and ergonomic, it's ideal for truck fleets and truck owners.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-HTM-3009, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
