

## **World Patent Marketing Team Offers Relief For Avid Tail Gate Fans With Its Newest Automotive Invention, The Tail Gate Seat**

*World Patent Marketing Reviews A New Automotive Invention. Will Tail Gate Seat Be the Next World Patent Marketing Low Cost Success Story?*

Miami, FL ([PRWEB](#)) July 22, 2016 -- World Patent Marketing, a vertically integrated manufacturer and engineer of patented products, announces the Tail Gate Seat, an automotive invention designed to provide comfortable seating at the back of a pickup truck.

"The Truck Repair market in the U.S. is worth \$29 billion," says Scott Cooper, CEO and Creative Director of World Patent Marketing. "As a result, consumers and businesses alike have resumed purchases of new and used trucks, and the repairs associated with these vehicles have experienced a parallel increase."

"Pickup trucks are very useful because it can haul a great deal of large items at the back," says Jerry Shapiro, Director of Manufacturing and World Patent Marketing Inventions. "But when it comes time to take a break, providing riders with ample seating can become a problem. Thanks to the ingenious automotive invention called the Tail Gate Seat, this is all about to change."

The Tail Gate Seat is an automotive invention designed to provide comfortable seating inside a tail gate portion of a pickup truck. Made with highly durable materials, this invention comprises of at least one seat, a back support or back rest, a seat hinge, a couple of side brackets and one or more drink holders for added features. What the Tail Gate Seat does is provide more comfortable seating in the back of the pickup after a long ride. The driver and the passenger can relax together in the Tailgate Seats. And while it provides good seating, what is amazing is that once it is no longer in use, it can be easily closed and stored securely. Anyone with a pickup truck will definitely want to add more function to it with the Tail Gate Seat.

"The Tail Gate Seat is an integrated seat inside the tail gate of a pickup designed for ease and comfort when seating is needed," says inventor Traci S. "When not in use, it is designed to fully close back inside the tailgate to allow full function of the pickup bed. It's convenient, comfortable and there when you need it. It will benefit everyone from tailgaters, farmers, construction workers, outdoorsmen and everyone in between!"

Victor Reed, a pickup truck owner from Tennessee, has this to say about the Tail Gate Seat: "I love going on road trips and my pickup is usually the vehicle of choice. The Tail Gate Seat allows me to have more ample and comfortable seating once I reach my destination."

The Tail Gate Seat is an automotive invention perfect for people with pickup trucks.
