

## **New at Summit Racing Equipment: DC Sports Intake and Exhaust Components**

*Summit Racing now carries DC Sports Intake and Exhaust Systems for tuner cars. DC Sports makes a broad range of headers, exhaust systems, and cold air intakes for popular cars like the Chevy Cobalt SS, Honda Civic, Nissan 350Z, Mitsubishi Eclipse, Volkswagen GTI, Hyundai Genesis, and the Toyobaru BRZ/FRS twins.*

Tallmadge, OH ([PRWEB](#)) August 02, 2016 -- Summit Racing now carries [DC Sports Intake and Exhaust Systems](#) for tuner cars. DC Sports makes a broad range of headers, exhaust systems, and cold air intakes for popular cars like the Chevy Cobalt SS, Honda Civic, Nissan 350Z, Mitsubishi Eclipse, Volkswagen GTI, Hyundai Genesis, and the Toyobaru BRZ/FRS twins.

### Headers

DC Sports makes 4-1, 4-2-1, and 3-1 Headers in one- and two-piece configurations. Each one is made from high quality, mandrel-bent steel tubing with precision TIG/MIG welds for durability. DC Sports headers are dyno-proven to deliver performance gains across the entire powerband. The headers feature a ceramic coating originally developed for the aerospace industry. The coating maximizes heat retention to control underhood temperatures, and provides a long lasting finish.

### Exhaust Systems

DC Sports has Exhaust Systems to complement its headers. Available in either cat-back or axle-back configurations, DC Sports exhaust systems are made from stainless steel that's hand-welded to ensure excellent fitment. The systems bolt up to the stock hangers with no modifications necessary. Each free-flowing muffler terminates in a polished stainless steel exhaust tip.

### Air Intake Systems

Available in cold air or short ram configurations, DC Sports' Air Intake Systems are an easy way to bolt-on dyno-proven performance. The systems use polished aluminum tubing to save weight and resist corrosion. Each system includes a washable, reusable air filter. The cold air intake systems locate the air filter outside of the engine bay, allowing the engine to ingest colder, denser air for optimal performance. The short ram systems are much more compact, ideal for cramped engine bays or vehicles with significant modifications.

DC Sports intakes, headers, and exhaust systems carry a one-year full manufacturer warranty. Many DC Sports components have CARB approval. Visit [SummitRacing.com](http://SummitRacing.com) to check CARB compliance for a specific part.
