

Ride N Care Expands Transportation Options for Seniors with Lyft Concierge

Ride N Care is now working with Lyft to give healthcare facilities, seniors, medical patients and their families even greater flexibility in scheduling safe, reliable transportation. By adding traditional rideshare services to its door-through-door transportation platform, Ride N Care makes getting around even easier for those who don't drive.

Santa Monica, CA ([PRWEB](#)) August 03, 2016 -- Ride N Care, Inc., the leading logistics platform connecting Seniors, medical patients and healthcare facilities with certified healthcare professionals offering safe, reliable door-through-door transportation + companion care, announced today that it is working with rideshare pioneer Lyft, Inc. and has added Lyft's Concierge Service to Ride N Care's suite of service offerings. With Lyft Concierge, both individual customers and healthcare facilities using Ride N Care's platform for pre-scheduled transportation will now have the additional option of requesting traditional curb-to-curb rideshare services too. Ride N Care's customers won't have to create a new account to take advantage of Lyft Concierge and will continue to have a single, 24/7 point of contact for all their transportation needs on Ride N Care's 1-800 phone number or at [ridencare.com](#). As with all of its platform services, Ride N Care will schedule the transportation and collect payment directly from the customer.

“The addition of Lyft Concierge broadens Ride N Care's service platform offerings significantly and gives our customers – both individuals and care facilities – an additional transportation option when deciding which Ride N Care solution makes sense for them,” said Danilo Toskovic, Ride N Care's Co-Founder and CEO. “And after evaluating a number of potential rideshare partners, it was clear to us that the dedicated healthcare team at Lyft understood our needs and was willing to give us the support we need to make sure Ride N Care's customers have the best transportation experience possible.”

About Ride N Care:

Based in Santa Monica, California, Ride N Care's digital platform connects customers with certified healthcare professionals offering door-through-door transportation plus companion care for the duration of each trip, providing a critical solution for:

- Seniors seeking to age-in-place and maintain their independence,
- Outpatients who need assistance getting to/from medical appointments,
- Hospitals, assisted living, rehabilitation and other healthcare facilities who depend on safe, reliable transportation options for their patients and on-site residents, and
- Families who want to make sure loved ones get to important appointments and other places where they need to go, safely and on-time.

Ride N Care's partnerships with non-emergency medical transportation providers offer the flexibility of scheduling gurney or wheelchair-accessible transportation as well. Sign up for an account, schedule transportation or apply to drive at <http://www.ridencare.com>, or via a live operator at +1 (800) 507-0672.

About Lyft:

Lyft was founded in June 2012 by Logan Green and John Zimmer to reconnect people and communities through better transportation. Lyft is the fastest growing rideshare company in the U.S and is available in more than 200 cities. Lyft is preferred by drivers and passengers for its safe and friendly experience, and its commitment to driving positive change for the future of our cities.
