

## **New at Summit Racing Equipment: Engine Power In House Power Mouse Stage 3 Parts Combo**

*Summit Racing now offers the Engine Power In House Power Mouse Stage 3 Combo. The combo is based on PowerNation TV's Engine Power Power Mouse small block Chevy project; the Stage 3 version made 993 horsepower and 917 lbs.-ft. of torque on the engine dyno.*

Tallmadge, OH ([PRWEB](#)) August 05, 2016 -- Summit Racing now offers the [Engine Power In House Power Mouse Stage 3 Combo](#). The combo is based on PowerNation TV's Engine Power Power Mouse small block Chevy project; the Stage 3 version made 993 horsepower and 917 lbs.-ft. of torque on the engine dyno.

In [Stage 1](#) of Engine Power's "In House Power Mouse" small block Chevy project, the guys built a 357 horsepower motor on a \$4,000 budget. For [Stage 2](#), the 355 was bored and stroked to 383 cubic inches and 546 horsepower. For Stage 3, Engine Power's goal was tarmac shredding power. The crew updated the Stage 2 383 to 406 cubic inches, installed a supercharger, and tuned the engine for 100 octane gas.

Engine Power's In House Power Mouse Stage 3 Parts Combo features the parts used in the build, less the supercharger:

- Dart Little M engine block
- Canton Road Race oil pan
- Melling Shark Tooth oil pump
- Edelbrock Super Victor CNC intake manifold
- Quick Fuel Q-Series Blow-Thru carburetor
- Cometic MLS head gaskets
- Summit Racing SFI harmonic balancer
- Summit Racing timing cover

See the [Power Mouse Stage 3](#) build in episode 14 of PowerNation TV's Engine Power:
