

The Ambulance Service Association launches its new website

The Ambulance Service Association's website has been redeveloped by MSO.net and Cope & Glory. The site provides all the latest information and offers a valuable resource for those interested in pursuing a career in the ambulance sector.

([PRWEB](#)) March 11, 2004 -- The Ambulance Service Association is pleased to announce the launch of its new website. The Association brings together all NHS ambulance services throughout England, Wales, Scotland and Northern Ireland, as well as the public sector ambulance services of Guernsey, Jersey, the Isle of Man and Gibraltar.

The website has been redeveloped by MSO.net and Copy & Glory and provides all the latest information relating to the ASA's member services while offering a valuable resource for those interested in pursuing a career in the ambulance sector.

One key feature of the site is a bespoke online events section whereby details of events can be uploaded and bookings and payments taken (this feature was written specifically for the ASA by MSO.net). Further features include a full search engine facility and a documentation archive offering administrators a more structured format when managing the many publications that are uploaded to the site.
