

## **Local website started on Vancouver Island, BC for classic cars available for filming.**

*A small group of classic car owners has established a website to promote their vehicles. The cars are made available to producers of films and TV productions that are filmed in the Victoria, BC and lower Vancouver Island area.*

([PRWEB](#)) March 15, 2004 --We are a group of automotive enthusiasts who provide our cars to the film industry. If there is a film or TV show that needs a good, classic car, chances are we have it or can get it. Many of the cars are pristine while others are just great examples of their time period.

Contact us and discuss your needs. Most of the cars are dearly loved by the owners so don't expect to be able to blow them up in your film! Some can be driven by your driver and some will require the owner to drive.

Contact us if you need a car in your production! <http://www.moviecars.cmail.ca>
