

The Morey Corporation Provides International Truck and Engine Corporation with Telematics Hardware Solution

The Morey Corporation of Woodridge, IL, an electronic manufacturing service provider of commercial telematics hardware solutions, announced today that they are providing the hardware for the new International telematics product from International Truck and Engine Corporation.

Woodridge, IL ([PRWEB](#)) April 28, 2004 -- The Morey Corporation of Woodridge, IL, an electronic manufacturing service provider of commercial telematics hardware solutions, announced today that they are providing the hardware for the new International telematics product from International Truck and Engine Corporation. International launched its new telematics solution at the annual Technology and Maintenance Conference and it will be available in July.

Jeff Bannister, director, Truck Electronics, International Truck and Engine Corporation, said "We chose The Morey Corporation as our hardware supplier because of their expertise in hardened electronics and their proven program management service. Working with Morey we were able to develop a robust design to meet the demands of the commercial carrier market. As the first OEM to provide real-time comprehensive, integrated operating information, our new telematics solution lifts the blindfold on productivity and performance management for entire fleets. It's as if the fleet manager or technician is able to be with every truck in person, with full diagnostic capability."

Scott Morey, President of The Morey Corporation said "We are pleased International chose us as its hardware supplier. Our experience as an electronic manufacturing service supplier of telematics devices enabled us to work with International to create a technical solution that would meet OEM specification and validation requirements in a commercial vehicle. International telematics will now provide the confidence that fleets are looking for in a total telematics solution with a proven OEM."

About The Morey Corporation

The Morey Corporation is a privately held company with over seventy years of service in providing electronic manufacturing services to fortune 100 companies. We provide full service solutions to our OEM customers by offering complete design, test, quality and manufacturing services. Our products are used by OEMs in the hardened electronic markets of commercial transportation, agriculture, construction and industrial controls.
