

## **InventHelp Inventor Designs Improved Cargo Restraint (FLA-2589)**

*InventHelp is one of America's largest invention submission companies, and is submitting the DH DIVIDER to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) November 18, 2015 -- Are you looking for a better way to prevent cargo from shifting in a utility trailer while driving? Then you need the patent-pending DH DIVIDER.

The DH DIVIDER offers a more secure way to stabilize items during transport in a utility trailer. In doing so, it prevents supplies and equipment from sliding around the trailer during travel. As a result, it provides added protection and it could help prevent damage. The invention features an adjustable design that is convenient and easy to use so it is ideal for use by contractors, tradesmen, do-it-yourselfers, sportsmen and owners of utility trailers. Additionally, the DH DIVIDER is producible in design variations.

The inventor, from Pompano Beach, Fla., described the invention design. “My design ensures that cargo remains safe and in place during transport.”

The original design was submitted to the Fort Lauderdale office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-FLA-2589, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
