

InventHelp Inventor Develops Custom Auto Decoration (QCY-253)

One of America's leading invention submission companies, InventHelp is submitting the AUTO TOPPER to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) August 22, 2016 -- "I wanted a more decorative accessory to adorn the hood of my automobile," said an inventor from Troutman, N.C. "I wanted something that was exciting, eye-catching and animated, which led me to invent this."

He developed the patent-pending AUTO TOPPER to offer a distinctive way to customize the appearance of a motor vehicle. The unit features a fun and engaging design. It provides a unique way to showcase one's personality. The accessory is easy to attach and remove, and it will not damage the paint or finish. Also, the device is producible in other design variations, and it is usable on motorcycles and bicycles as well.

The original design was submitted to the Charlotte office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-QCY-253, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
