

InventHelp Clients' Tool Makes Cranking Quicker, Easier and Safer (RIM-262)

A leading invention submission firm, InventHelp is submitting the UNIVERSAL CRANK to applicable companies for their review.

PITTSBURGH, PA ([PRWEB](#)) August 25, 2016 -- Two inventors from Edinburg, Va., wanted to make it easier to use anything that has to be cranked or turned over. To meet this need they designed the UNIVERSAL CRANK.

This device enables a user to crank vehicle jacks, campers, etc., in a faster, easier manner. It also improves safety. Overall, it saves time and effort. Ergonomic and easy to use, the device is ideal for all motorists and campers. It's also handy around the home for eye hooks and more.

The original design was submitted to the Richmond office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-RIM-262, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
