

## **ICE AWAY SNOW REMOVER Invented by InventHelp Clients (ALL-690)**

*InventHelp, based in Pittsburgh, Pa., is working to submit the ICE AWAY SNOW REMOVER to companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) September 19, 2016 -- “We were tired of always having to physically remove snow and ice from our cars in the winter,” said one of two inventors, from Dacula, Ga. “We thought there had to be an easier way, so we invented the ICE AWAY SNOW REMOVER.”

The ICE AWAY SNOW REMOVER offers an easier way to remove snow, ice and frost from a vehicle’s exterior. In doing so, it eliminates the need to manually scrape snow and ice. As a result, it saves time and energy and it provides added protection and safety. The invention features an effective design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the ICE AWAY SNOW REMOVER is producible in design variations.

The inventors described the invention design. “Our design eliminates the need to brush and scrape away snow and ice.”

The original design was submitted to the Atlanta office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-ALL-690, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
