

InventHelp Invention Ensures Convenient Availability of License-Plate Numbers (AUP-216)

A leading inventor service firm, InventHelp is submitting THE VARGAS to companies for their consideration.

PITTSBURGH, PA ([PRWEB](#)) September 19, 2016 -- An inventor from Dilley, Texas, knows that most of us haven't bothered to memorize our vehicle's license-plate numbers. "While in a mall one day I thought about all of the news stories about vehicle theft that I'd been reading in newspapers and watching on TV," he said. "It occurred to me that I hadn't memorized my license-plate number, so I wouldn't have it ready for a police report if my car was ever stolen." That's when he had the idea for his design.

Ideal for all vehicle owners, the compact and easy-to-use THE VARGAS ensures that a user has his or her license-plate number available at all times. This allows for prompt action when reporting a stolen vehicle and eliminates the need to memorize the number. As a result, it promotes quick recovery and peace of mind.

The original design was submitted to the Austin office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 12-AUP-216, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
