

InventHelp Client's System Allows For Safer Visibility While Driving in Bright Sunlight (KOC-202)

InventHelp, founded in 1984, is submitting the SMART TINT to applicable companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) September 20, 2016 -- An inventor from Maidstone, SK, Canada, needed a way to protect his eyes while driving during the day without affecting safety during night driving.

To meet this need he designed SMART TINT, which provides a reliable way to protect the eyes from sun glare while driving. It doesn't affect visibility while driving at night. Overall, it promotes safety and peace of mind. Easy to use and compliant with the law, it's ideal for all drivers.

The original design was submitted to the Canada office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-KOC-202, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
