

InventHelp® Client Designs Driver-Civility Aid (BMA-4520)

Pittsburgh-based InventHelp attempts to submit an invention, Driver's Civility Expression Display Panel, to companies for review.

Pittsburgh, PA ([PRWEB](#)) September 23, 2016 -- In the interest of increasing civility and reducing tension and hostility on the road, an inventor from Shrewsbury, Mass., came up with a way for drivers to share friendly sentiments.

The patent-pending Driver's Civility Expression Display Panel is a device that provides an effective way to foster civility on the road. It eases tension and hostility, which helps prevent road rage and associated dangers. As a result, it promotes safety and peace of mind. In addition, it may enhance productivity of commercial drivers. The device is easy to use and producible in design variations.

The original design was submitted to the Boston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-BMA-4520, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
