

## **Inventor and InventHelp Client Develops Improved Vehicle Covering (ORD-2251)**

*Based in Pittsburgh, InventHelp is working to submit the CAR CABANA to applicable companies in the hopes of their good faith review.*

PITTSBURGH, PA ([PRWEB](#)) September 28, 2016 -- Based in Pittsburgh, InventHelp is working to submit the CAR CABANA to applicable companies in the hopes of their good faith review.

"I needed a way to keep my vehicle protected when I left it parked outdoors in the harsh sun," said an inventor from Palm Coast, Fla. "I wanted a covering that would not only safeguard the paint and interior from sun damage, but that would protect it from inclement weather, as well."

He created a prototype for the CAR CABANA to safeguard the vehicle from harsh sunlight. The cover protects the paint, upholstery and interior from fading and other damages. It keeps the interior of the vehicle cool and comfortable. In addition, the cover avoids nicks, dents and scratches, which offers added peace of mind.

The original design was submitted to the Orlando office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-ORD-2251, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
