

## **InventHelp® Client Develops Tire-Changing Tool (AAT-1863)**

*Pittsburgh-based InventHelp attempts to submit an invention, Tire Buddy, to companies for review.*

Pittsburgh, PA ([PRWEB](#)) November 03, 2016 -- "I thought that there had to be a quicker, easier way to change a flat tire," said an inventor from Austell, Ga. "I wanted to do away with the usual hassle and strain, which led me to develop this convenient labor-saving device."

He created a prototype for the Tire Buddy to offer a more convenient way to change a flat tire. The device makes it easier to move and position the spare tire. It eliminates the heavy lifting normally involved in changing a tire, which minimizes the risk of injury. The tool also keeps the motorist clean by ending the need to handle the tire directly. Additionally, all of this provides added peace of mind.

The original design was submitted to the Atlanta office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-AAT-1863, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
