

InventHelp Client's Device Allows For Easy Retrieval of Metal Objects (OCM-1076)

One of America's leading inventor firms, InventHelp is submitting the Only When You Want Magnet to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) November 02, 2016 -- An inventor from Norwalk, Calif., knows how frustrating it can be to have no way to retrieve metal objects that are out of reach. "As an auto mechanic I drop nuts and bolts into engines quite often, not to mention having to retrieve tools," he said. "In order to solve this problem, I thought of a handy and reliable retrieval aid."

The Only When You Want Magnet enables a user to retrieve metal objects (nuts, bolts, tools, etc.) in a quicker, easier manner. This avoids strain and hassle, as well as saves time and effort. It also prevents lost or abandoned objects.

Versatile, easy to use and featuring an ergonomic design, the device is suitable for the general population but ideal for mechanics.

The original design was submitted to the Orange County office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-OCM-1076, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
