

InventHelp Inventor Develops Convenient Automobile Cover (WDH-1011)

InventHelp, founded in 1984 in Pittsburgh, is submitting the COVER UP to appropriate companies for their consideration.

PITTSBURGH, PA ([PRWEB](#)) November 21, 2016 -- "I noticed that my car was suffering some notable visible damages simply because it was parked outdoors all the time," said an inventor from Suitland, Md. "I devised this cover to protect my vehicle from debris and inclement weather. It is quick and easy to set up and take down."

He developed the COVER UP to protect the vehicle while it is parked outdoors. The cover safeguards the vehicle from the elements, including rain, snow, sleet and ice. It also offers protection from the harmful ultraviolet rays of the sun. This saves the owner from having to pay for touch-ups and repairs as often. What makes this cover unique is that it is designed for quick and easy setup and take down. Additionally, the cover remains easily accessible for use whenever it is needed.

The original design was submitted to the Washington D.C. office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-WDH-1011, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
