

Convenient Surplus Vehicle Storage Invented by InventHelp Client (HLW-1679)

InventHelp, one of America's leading invention firms, is submitting the B.I. BUMPER to applicable companies for their review.

PITTSBURGH, PA ([PRWEB](#)) November 26, 2016 -- Extra storage space is needed in a lot of cars and trucks, but the products available on the market aren't stable and they tend to take up precious garage space. "This problem inspired me to design something that allows for more efficient and space-saving vehicle storage," said an inventor from Miami, Fla.

The result was the B.I. BUMPER, which offers extra storage space for a car or truck. Most important, it doesn't take up precious garage or driveway space. It also allows for quick and easy access.

Versatile, compact and easy to use, the B.I. BUMPER serves as an alternative to unstable and cumbersome vehicle-storage products, and it's compatible with all vehicles.

The original design was submitted to the Hollywood office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-HLW-1679, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
