

CYCLE LIFT-N-CARRY Invented by InventHelp Client (SAH-1110)

InventHelp is submitting the CYCLE LIFT-N-CARRY to companies in the hopes of their good faith review.

PITTSBURGH, PA ([PRWEB](#)) November 21, 2016 -- An inventor, from Sacramento, Calif., thought there needed to be a better way to lift and transport a motorcycle behind a vehicle, so he invented the CYCLE LIFT-N-CARRY.

The CYCLE LIFT-N-CARRY provides a simple and safe way to transport a motorcycle behind another vehicle. In doing so, it offers an alternative to traditional trailers and transport methods. As a result, it provides added protection, safety and peace of mind. The invention features an effective design that is convenient and easy to use so it is ideal for motorcycle owners. Additionally, the CYCLE LIFT-N-CARRY is producible in design variations and a prototype is available.

The inventor described the invention design. “My design enhances safety when transporting a motorcycle, and it promotes ease of loading and unloading.”

The original design was submitted to the Sacramento office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-SAH-1110, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
