

Inventor and InventHelp Client Develops Improved Timing Wrench (OCC-1146)

InventHelp is attempting to submit this idea, the RATCHET TIMING WRENCH, to applicable companies for their consideration.

PITTSBURGH, PA ([PRWEB](#)) December 13, 2016 -- "I had a hard time tightening and loosening bolts using a conventional timing wrench," said an inventor from Carson, Calif. "I wanted to design the wrench differently so that I could work more productively."

He developed the RATCHET TIMING WRENCH to provide a more efficient way to tighten and loosen bolts. The design saves time and effort, and eliminates hassles and frustrations. The tool improves on-the-job productivity. It features durable construction. Additionally, the invention is designed to be inexpensive and easy to use.

The original design was submitted to the Orange County office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-OCC-1146, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
