

STICK/GRUB GRABBER Invented by InventHelp Client (IPL-369)

A leading inventor service firm, InventHelp is submitting the STICK/GRUB GRABBER to companies for their consideration.

PITTSBURGH, PA ([PRWEB](#)) December 20, 2016 -- "I am a mail carrier and I thought there needed to be a fast and easy way to check the brake lights and collect food donation bags," said an inventor, from Greenfield, Ind., "so I invented the STICK/GRUB GRABBER."

The patent-pending STICK/GRUB GRABBER provides an efficient way to test a mail truck's rear brake lights. It also offers an easy way for mail carriers to collect food bags during a food drive. As a result, it enhances safety and it saves time and effort.

The invention features a dual-purpose design that is convenient, easy to use, and adjustable to most vehicles and tests brake lights on all trailers. Its dual-purpose design is ideal for the Postal Service, LLV postal vehicles, delivery services, lawn services, trucking services, public and school buses, car-repair shops, boating and RV enthusiasts, as well as all other vehicles. Additionally, the STICK/GRUB GRABBER is producible in design variations and a prototype is available.

The inventor described the invention design. "My design enhances convenience for mail carriers." It also can be used for all other vehicles.

The original design was submitted to the Indianapolis office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-IPL-369, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
