

## **Eliminate Blind-Spot Danger With the CURRY SAFETY MIRROR - Designed by InventHelp Client (MOZ-455)**

*InventHelp is working to submit this idea, the CURRY SAFETY MIRROR, to companies for their possible feedback.*

PITTSBURGH, PA ([PRWEB](#)) January 06, 2017 -- Tired of the nuisance and danger of blind spots while driving, an inventor from Panama City, Fla., decided that there should be a better way to use sideview mirrors in vehicles. He eventually came up with the CURRY SAFETY MIRROR to meet this need.

This modified sideview mirror makes changing lanes safer for driver. It eliminates the nuisance and danger of blind spots, which helps prevent accidents that result in injuries, fatalities and/or damages.

Easy to use and producible in design variations, the CURRY SAFETY MIRROR is designed to promote convenience and peace of mind.

The inventor has created a prototype of his idea.

The original design was submitted to the Mobile office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-MOZ-455, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
