

InventHelp Inventor Designs Emergency Supply Kit for Vehicles (MTN-2718)

InventHelp, founded in 1984 in Pittsburgh, is submitting the A.E.K. to appropriate companies for their review.

PITTSBURGH, PA ([PRWEB](#)) January 06, 2017 -- “I thought there needed to be a convenient way to prepare drivers for all types of roadside incidents,” said an inventor, from Bridgeport, Conn., “so I invented the A E K.”

The A E K provides a convenient way for motorists to perform roadside repairs. It also ensures that the necessary fluids, tools and supplies are readily available. As a result, it provides added peace of mind and it could help to prevent frustrations and delays. The invention features a user-friendly design that is convenient and easy to use so it is ideal for vehicle owners. Additionally, the A E K is producible in design variations.

The inventor described the invention design. “My design ensures that the necessary supplies are available in the event of an emergency.”

The original design was submitted to the Manhattan office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-MTN-2718, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
