

ANDERSON CAR SEAT SAFETY (ACSS) Invented by InventHelp Client (ORD-2387)

A leading invention submission company, InventHelp is submitting the ANDERSON CAR SEAT SAFETY (ACSS) to companies for review.

PITTSBURGH, PA ([PRWEB](#)) April 11, 2017 -- An inventor, from Azle, Texas, thought there needed to be a way to protect infants or children accidentally left behind in a parked car, so he invented the patent-pending ANDERSON CAR SEAT SAFETY (ACSS).

The ANDERSON CAR SEAT SAFETY (ACSS) provides an effective way to prevent a child from being left behind in a vehicle. In doing so, it could help to prevent heat or cold related injuries. As a result, it enhances safety and it provides added peace of mind. The invention features a practical design that is convenient and easy to use so it is ideal for parents and caregivers. Additionally, the ANDERSON CAR SEAT SAFETY (ACSS) is producible in design variations.

The inventor described the invention design. “My design provides an effective reminder for drivers.”

The original design was submitted to the Orlando office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-ORD-2387, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
