

## **ZOE SEAT Invented by InventHelp Client (SUU-353)**

*A leading invention submission company, InventHelp is submitting the ZOE SEAT to companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) April 14, 2017 -- An inventor, from Bridgeton, Mo., thought there needed to be a way to enhance vehicle safety for young children, so he invented the ZOE SEAT.

The patent-pending ZOE SEAT helps to prevent a child from being accidentally left behind in a parked vehicle. It also ensures that a child's safety harness is fastened during transit. As a result, it enhances safety and it provides added peace of mind. The invention features an effective design that is convenient and easy to use so it is ideal for parents and caregivers. Additionally, the ZOE SEAT is producible in design variations.

The inventor described the invention design. "My design provides an effective reminder for parents when traveling with a young child."

The original design was submitted to the St. Louis office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-SUU-353, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
