

## **Inventor and InventHelp Client Designs Communication Novelty for Drivers (ALL-925)**

*Pittsburgh-based InventHelp is attempting to submit the PERSONALIZE DIGITAL TAG to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) May 18, 2017 -- Driving can be tedious and even aggravating, but if drivers could communicate with each other in a fun way an inventor from Calhoun, Ga., thinks this problem can be alleviated. "That's why I thought of the PERSONALIZE DIGITAL TAG," he said.

This device enables a driver to communicate with other drivers and pedestrians in a dynamic way. It expresses his or her feelings, humor and sentiments. As a result, it promotes amusement, and relieves stress and tedium.

Versatile, highly visible, easy to use and compatible with all vehicles, the PERSONALIZE DIGITAL TAG is ideal for all drivers who wants communication enhancement and entertainment while getting from point A to point B.

The original design was submitted to the Atlanta office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-ALL-925, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
