

TRANSMISSION SPECIALTY TOOL Invented by InventHelp Client (AVZ-1506)

A leading inventor service firm, InventHelp is submitting the TRANSMISSION SPECIALTY TOOL to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) May 19, 2017 -- “I own a transmission shop and I needed a better way to reach snap rings and E clips when rebuilding a transmission,” said an inventor, from Greenwood, Ark., “so I invented the TRANSMISSION SPECIALTY TOOL.”

The TRANSMISSION SPECIALTY TOOL provides an easy way to remove and install snap rings and E clips on a transmission. It also offers a more effective way to work in tight spaces. As a result, it saves time and effort and it helps to prevent struggles and frustrations. The invention features a user-friendly design that is convenient and easy to use so it is ideal for mechanics and do-it-yourselfers. Additionally, the TRANSMISSION SPECIALTY TOOL is producible in design variations.

The inventor described the invention design. “My design simplifies the process of removing and installing snap rings and E clips on a transmission.”

The original design was submitted to the National Sales Office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-AVZ-1506, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
