

COVER TOUGH Provides Optimal Protection for Vehicle Exteriors - Designed by InventHelp Client (DLL-2889)

InventHelp, based in Pittsburgh in 1984, is submitting the COVER TOUGH to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) November 06, 2015 -- After purchasing a new truck an inventor from Denison, Texas, wanted to keep it safe from hail and other harsh elements without having to deal with a bulky, unwieldy cover

To meet this need he designed the patent-pending COVER TOUGH, which optimizes protection of a vehicle exterior from hail or other extreme elements. As a result, it helps avoid marring and damage. It also eliminates the need for bulky, unwieldy covers, and it might serve as a car-insurance deductible. Easy to use, store and transport, the cover is producible in different sizes and versions.

The original design was submitted to the Dallas office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-DLL-2889, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
