

## **Inventor and InventHelp Client Develops Driver Appreciation Communication System (HUN-332)**

*A leading invention company, InventHelp is submitting the DRIVER COURTESY LIGHT to companies for their potential feedback.*

PITTSBURGH, PA ([PRWEB](#)) May 30, 2017 -- An inventor from Houston, Texas, has developed the DRIVER COURTESY LIGHT, a vehicle accessory that shows appreciation for an act of kindness between motorists.

"It seems like we hear more stories about road rage and not enough about acts of kindness on the road. I was inspired to create something that expressed driver appreciation to other courteous drivers," said the inventor.

The DRIVER COURTESY LIGHT provides a simple and effective means of displaying gratitude and courtesy to other drivers. It shows unmistakable appreciation for a kind gesture in a distinctive, appealing and attention getting manner. This may prevent incidents of aggressive driving and road rage from developing.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HUN-332, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
