

Research and Markets: View This Up-to-the-Minute Analysis of Honeywell International Inc.

Research and Markets (researchandmarkets.com/reports/c14093) has announced the addition of Honeywell International Inc.: 2005 Company Profile Edition 1 to their offering.

([PRWEB](http://www.prweb.com)) March 18, 2005 -- Research and Markets (<http://www.researchandmarkets.com/reports/c14093>) has announced the addition of Honeywell International Inc.: 2005 Company Profile Edition 1 to their offering.

This new company profile on Honeywell provides up-to-the-minute-analysis on the company. Addressing all the key issues that confront the component sector, this profile analyses Honeywell's current and future M&A activity, changing new product development and R&D, financial and market information, company structure and product range, as well as offering a summary of the company's strategy and its future prospects.

Honeywell Inc is a diversified manufacturing and technology company, which manufactures aerospace, automotive, transportation and power equipment, and specialty materials. The company's vast product portfolio includes turbochargers, Fram filters, Prestone antifreeze, engines, avionics, flight-safety equipment, heating and cooling, and control systems.

Honeywell operates in four primary business segments: Aerospace, Automation and Control Solutions, Transportation Systems, and Specialty Materials. The Transportation Systems segment serves the automotive industry through its three strategic business units (SBUs), Turbo Technologies, Consumer Products Group, and Friction Materials. For the fiscal ended December 31, 2004, Honeywell posted sales of US\$25.6 billion, an increase of 11% over the previous year; and the Transportation Systems segment contributed US\$4.3 billion of the total sales.

The profile is structured as follows:

Company structure

A summary of the ownership and structure of the company, the other activities it is involved in and the relative contributions made by these activities. This will comprise:

- Company overview
- Shareholders
- Divisional organisation
- International production network and engineering and development centres
- Automotive product profile
- A concise summary of the company's product groups.

Customer profile

A note of the company's major customers worldwide and a round-up of recently awarded supply contracts.

Financial performance

A review of the financial strategy of the company as recorded in public statements and reports, followed by an analysis of the accounts for the last five years. It includes commentary on how the company has performed and its prospects over the coming 12 months.

Company strategy

A summary of the key elements of the company's strategy, particularly in major operational areas such as technical development, design or marketing. This section explains how recent events and emerging trends fit into the overall picture of the industry. It also summarises events over the past three years such as acquisitions, disposals and new ventures.

Product development and R&D

An overview of the company's R&D strategy and recently launched products.

Prospects

Opinion on the company's future prospects.

Contents include:

- Company Dossier
- Worldwide Locations
- Financial Analysis
- Competitor Analysis
- Key Events
- SWOT Analysis
- Customers
- Products
- Product Development
- Prospects
