

InventHelp Inventions Ensures that Vehicle Occupants Know Song Lyrics (IPL-451)

InventHelp, a leading inventor service company, is working to submit Auto Tunez to companies for their review.

PITTSBURGH, PA ([PRWEB](#)) October 03, 2017 -- PITTSBURGH...An inventor from Clayton, Ind., wants people in vehicles to be without a doubt about the lyrics of songs they're listening to while on the road. "Many times while driving I've become frustrated by not knowing the lyrics of songs or not being able to hear all of them, and I've been unable to look them up while keeping my eye on the road," he said. "Also, I get irritated when someone sings songs with the wrong lyrics." In order to solve these problems, he came up with the patent-pending AUTO TUNEZ.

This device enables a user to know lyrics of songs while driving. It eliminates the need to look up the lyrics. It also enhances enjoyment of music and sing-alongs, as well as settles disputes about lyric accuracy. Compact, versatile, easy to use and producible in many design variations, AUTO TUNEZ is ideal for frequent and/or long-distance drivers.

The original design was submitted to the Indianapolis office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-IPL-451, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
