

## **InventHelp Inventor Develops Customized Set of Bumpers for Trucks/SUVs (OLC-245)**

*InventHelp, a leading inventor service company, is working to submit JC Bumpers to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) October 05, 2017 -- "I wanted to alter the appearance of my vehicle, and I thought that modifying the bumpers would be a great idea," said an inventor from Enid, Okla. "I designed these bumpers to be decorative and stylish while also affording enhanced strength and protection."

He created a prototype for the patent-pending JC BUMPERS to add a decorative touch to a truck or SUV. The kit features an eye-catching design that is designed to attract the attention of onlookers. The bumpers are made of high-strength, durable materials. This offers added protection to the equipped vehicle. Additionally, the bumpers are adaptable for use with any new or existing truck or SUV.

The original design was submitted to the Oklahoma City office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-OLC-245, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
