

InventHelp Inventor Develops Portable Workspace for Trades Professionals (CBA-3124)

Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, the Trailer Buddy, in the hopes of a good faith review.

PITTSBURGH, PA ([PRWEB](#)) October 06, 2017 -- "We thought there needed to be a quick and easy way for carpenters to work anywhere," said one of two inventors, from Easley, S.C., "so we invented THE TRAILER BUDDY."

THE TRAILER BUDDY provides an effective workspace for carpenters. In doing so, it offers an improved alternative to traditional workbenches. As a result, it increases efficiency and it eliminates frustrations. The invention features a portable design that is convenient and easy to use so it is ideal for carpenters and do-it-yourselfers. Additionally, the invention is producible in design variations.

The inventor described the invention design. "Our design offers a portable way to cut, drill and work on carpentry projects."

The original design was submitted to the Columbia office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-CBA-3124, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
