

## **InventHelp Inventor Creates Accessory to Promote Seat-Belt Use (CNC-133)**

*InventHelp, founded in 1984 in Pittsburgh, is attempting to submit this idea, the Click 2 Start, to applicable companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) October 06, 2017 -- “I wanted to create a way to promote safety for drivers,” said an inventor, from Charlotte, N.C., “so I invented the CLICK 2 START.”

The CLICK 2 START ensures that a driver’s seat belt is properly fastened before driving. In doing so, it offers added protection. As a result, it enhances safety and it provides added peace of mind. The invention features an effective design that is convenient and easy to use so it is ideal for motorists. Additionally, the invention is producible in design variations.

The inventor described the invention design. “My design prevents an individual from driving without a seat belt.”

The original design was submitted to the Charlotte office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-CNC-133, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
