

System Streamlines Valet Service (HLW-1829)

Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, No More Wait Valet, in the hopes of a good faith review.

PITTSBURGH, Penn. ([PRWEB](#)) October 31, 2017 -- Valet parking is V.I.P. service, so receivers of such service shouldn't have to wait for their vehicles for longer than it would take to get their vehicle on their own. "In other words, we don't think one should have to pay to wait," said one of two inventor from Miami, Fla. "That's why we decided to develop this alternative valet system."

The patent-pending NO MORE WAIT VALET allows for quicker, more efficient valet service. It eliminates the need for long waits, which saves time. As a result, it delivers more satisfaction for money spent.

Serving as an alternative to conventional valet services and streamlining the valet process, NO MOREWAIT VALET promotes convenience and peace of mind. It's ideal for hotels, restaurants, country clubs, malls, etc.

The original design was submitted to the Hollywood office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HLW-1829, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
