

Inventor Develops Accessories to Customize Vehicle Tires (FRO-315)

InventHelp, a leading inventor service company, is working to submit Tire Fire to companies for their review.

PITTSBURGH ([PRWEB](#)) November 07, 2017 -- PITTSBURGH..."As a truck driver, I see how people customize their cars in a variety of ways," said one of two inventors from Fresno, Calif. "This led me to think of a never-before-seen way to personalize the look of a vehicle. It adds a ton of flair to the tires, making them exciting."

They developed the TIRE FIRE to offer a convenient way to customize the appearance of a vehicle's tires. The accessory adds a distinctive touch to the vehicle's appearance. It enables the owner to personalize the look of the vehicle. The unit features an attention-getting design. Moreover, the invention is adaptable for use with new and existing tires.

The original design was submitted to the Fresno office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-FRO-315, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
