

## **Accessory Enables Babies and Children to Eat and Play Conveniently in a Car Seat (VBH-192)**

*Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, Away We Go Travel Table, in the hopes of a good faith review.*

PITTSBURGH ([PRWEB](#)) November 13, 2017 -- An inventor from Virginia Beach, Va., takes her child along in the car a lot, and there have been many spills as a result, so she has come up with a way to prevent this problem that's common among parents of babies and young children.

The AWAY WE GO TRAVEL TABLE is an accessory that provides a more convenient way for a baby or child to eat and/or play while sitting in a car seat. It prevents spills and messes, as well as keeps the baby or child occupied and comfortable.

Versatile, ergonomic and easy to use, the accessory is compatible with any car seat, and it can be produced in many different sizes, colors and designs.

The original design was submitted to the Virginia office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-VBH-192, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
