

F&I Express® Adds Crystal Fusion Technologies, Inc. to Its Growing Network of Over 140 Aftermarket F&I Providers

F&I Express® is pleased to welcome Crystal Fusion Technologies, Inc. to the largest aftermarket product provider network in the country.

Grapevine, TX ([PRWEB](#)) October 09, 2017 -- Crystal Fusion manufactures Ultra-Hydrophobic coatings for windshields to enhance visibility in bad weather and strengthen the glass. Crystal Fusion also offers a windshield warranty and a unique Retention Program that they have successfully implemented in thousands of automobile dealerships worldwide.

“Crystal Fusion is the clear choice when choosing a product to protect your windshield,” said Gary LoCicero, Sales Director of CFT Products, Inc. “Partnering with F&I Express creates a seamless experience for those looking to protect their investment with our product.”

Digital solutions from award-winning F&I Express include eContracting, eSignature, Express Recoveries aftermarket cancellations, and more. F&I Express streamlines the aftermarket process for optimized efficiency to make F&I easier and more profitable for everyone involved.

Brian Reed, CEO of F&I Express, said, “We are excited to welcome Crystal Fusion to the F&I Express provider network of over 140 different providers. This will provide Crystal Fusion access to not only the F&I Express system but also to our partners who access our Dealer System Providers API.”

ABOUT F&I EXPRESS

Since 2008, F&I Express has been dedicated to leading the aftermarket industry into the digital age with innovative technology solutions. With digital solutions that cut costs and increase efficiency, F&I Express helps its dealer clients' CSI ratings by providing a faster and error-free process to eRate, eContract and eRegister all of their aftermarket products on one platform. Established by the international company Intersection Technologies Inc., F&I Express has a network of more than 140 aftermarket providers. By moving product and pricing information online, F&I Express provides all parties with instant online data access they want with simplicity and transparency.
