

Professional Materials Trunk Organizer Invented (SDB-1110)

Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, Trunk Buddy, in the hopes of a good faith review.

PITTSBURGH ([PRWEB](#)) December 02, 2017 -- Many professions require frequent transportation of expensive professional materials, which get damaged in transit and contribute to a cluttered or disorganized vehicle. Real estate agents, contractors, teachers, interior designers and others often have to have a range of materials on hand to best suit the needs of their clients, meaning that such materials are often stored permanently in the trunk of their car.

An inventor from Ramona, Calif., has invented the patent-pending TRUNK BUDDY, a special organizer for holding and stabilizing signs, files, documents and other supplies that get transported in the trunk of a vehicle. "My real estate signs and flags kept scratching each other and banging around in the trunk of my new car," said the inventor. "I needed a way to keep them secure and organized. TRUNK BUDDY keeps supplies safe and protected against possible damage while traveling, allowing me to retrieve what I need easily."

This invention allows busy professionals to retrieve basic supplies without reaching and stretching due to them scattering within the trunk space. Because it helps to keep a trunk clean and organized, it would benefit real estate agents, architects, contractors, interior decorators, teachers, traveling mothers and more.

The original design was submitted to the San Diego office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-SDB-1110, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
