

## **InventHelp Inventor Designs Vandal-Proof Sideview Vehicle Mirror**

*Pittsburgh-based InventHelp, a leading inventor service company, is submitting this client's idea, Hidden Mirror, in the hopes of a good faith review.*

PITTSBURGH ([PRWEB](#)) December 08, 2017 -- Vehicles are often vulnerable to vandalism and theft, especially in urban areas. One of common targets for such crimes is the sideview mirror. "After my car's sideview mirrors were broken and stolen several times, I decided that there should be an effective and reliable way to protect them," said an inventor from Bronx, N.Y. "Eventually, I came up with this invention."

The patent-pending Hidden Mirror helps prevent a vehicle's sideview mirror from being vandalized. It also protects it from theft. Overall, it eliminates the need for expensive repair or replacement, saving time, effort and money.

Ergonomic, easy to use, reliable and producible in many design variations, the Hidden Mirror promotes security and peace of mind.

The original design was submitted to the Manhattan office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-MTN-2955, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
