

InventHelp Inventor Develops Device to Protect Car and Prevent Street Crime

InventHelp, founded in 1984 in Pittsburgh, is attempting to submit this idea, the C.C.P. to applicable companies for their consideration.

PITTSBURGH ([PRWEB](#)) December 11, 2017 -- “I thought there needed to be a way to protect your car and prevent street crime,” said an inventor, from N. Hollywood, Calif., “so I invented the C.C.P.”

The C.C.P. provides an effective way to surveillance the area around a vehicle. In doing so, it could assist in identifying vandals, thieves or hit-and-run drivers. As a result, it enhances security and it provides added peace of mind. The invention features a user-friendly design that is easy to install and use so it is ideal for vehicle owners. Additionally, the C.C.P. is producible in design variations.

The inventor described the invention design. “My design offers an effective alternative to traditional security systems.”

The original design was submitted to the Los Angeles office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-LAX-863, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
