

## **Inventor Develops Automotive Personal Device Holder (HAK-753)**

*InventHelp, a leading inventor service company, is working to submit Ogir Cellphone/Tablet Holder to companies for their review.*

PITTSBURGH ([PRWEB](#)) December 01, 2017 -- An inventor from Piscataway, N.J., has developed the patent-pending Ogir Cellphone/Tablet Holder, a hands-free cellular telephone or tablet computer holder for motor vehicles. "I was inspired to develop my invention due to my job as an Uber driver," said the inventor.

The Ogir Cellphone/Tablet Holder enables motorists to operate their electronic device in a safe, convenient and hands-free manner. It allows motorists to keep both hands on the steering wheel without the need to look away. This will help reduce texting by drivers while traveling. Ultimately, this will improve travel safety for drivers.

The original design was submitted to the Hackettstown office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HAK-753, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
