

## **CLEAN RIDE Makes Public-Transportation Rides More Sanitary (MTN-2923)**

*InventHelp, a leading inventor service company, is working to submit Clean Ride to companies for their review.*

PITTSBURGH ([PRWEB](#)) December 06, 2017 -- Tired of getting dirty on subways and buses, two inventors from Brooklyn, N.Y., decided that there should be an easy but effective way to stay clean while taking public transportation. That's when they came up with the CLEAN RIDE.

This invention enables a user to ride on public transportation in a more sanitary manner. It prevents clothes from getting dirty and contaminated, which promotes cleanliness, comfort and peace of mind.

Compact, portable and easy to use, the CLEAN RIDE is ideal for anyone who takes public transportation.

The original design was submitted to the Manhattan office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-MTN-2923, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
